A Sermon : Preached in Janesville; Oc-

There shall be signs in the sun, and in the moon, and in the stars; and upon the carth distress of nations, with perpically; the sea and waves routing; men's hearts failing them for feer, and for looking after those things which are coming upon the carth; for the powers of heaven shall be shaken." And then shall they see the Son of Man couning in a cloud, with power and great glory. And when there things begin to come to have, then look up, and lift up your heads; for your redeniption drawnth night." Luke, 21st Chapter, from the 23th to the 20th yerg. No class of men were ever more thor-

oughly and purposely identified with the affairs (of their nation than) those whose names and characters are so conspicuous in the Bible. The Bible itself is a national history; and if the Word of Ood, then of the worth of divine things in the disasters and prosperities of a people. The religous instructors of the Hobrews were not hermits or ascotles, or retired philosophers, or men who held that private virtues alone could constitute religion, while public morality might be left by them to drift as it would pluk they were men whose religlie peril; men who east not only their silent and unconscious influence, but their determined purpose, and most active energies into the right ordering of the national ife; men than whom no truer types of patriotism can be adduced. It is not possible to study Hebrew polity without recognizing their conspicuous hand in its shaping; and as impossible to become familiar willisthe lives of these men, Moses, David, Isaiah, Jesus, St. Paul, without acquainting oneself with the national asects of their various days and generations. From first to last; from Moses, wise dietator and lawgiver, through that long succession of carnest and devoted prophets, to Jesus, last and greatest of instructors and prophets, we cannot full, to see how their wisdom, their zeal, their moral strength. their: self-devotion; their aspirations, and their achievements in character grose, in almost every instance, and from the pious contemplations of solitude, but from an active and deep interest in the people Israel. The wisdom of Moses is called into exercise, and made immortal in earthly annals, when his political sagacity is taxed to its utmost to bring his slavery degraded countrymen to a common social itinderstanding, and an orderly habit of living. A large proportion of the Psalms of David are either hymns of triumph, inspired by successful assaults upon his nation's onemies; or songs of war, written to stir up the people, in the name of the Lord of Hosts, to be strong and victorious in the day of battle. The touching Lamentation's of Jeromiah are uttered after national defeat, when "the city sits solitary that was full of people; when the gates are desclate, and young and uld lie on the ground in the streets." The prophetic fire of Isaiah is enkindled, the period of his inspiration arrives, and he ulters the words by which he is known to us, when in the prevalence of bad principles he foresees the fate of the kingdom; or when under the case lamity which did not long delay, he seeks to reanimate the paralized hope of his suf-

And chief 'among assignable citists, was the desire to redeem his people Israel which drove Jesus, at the age of thirty, to those six weeks of earnest thought in the wilderness of Judea, from which he came convinced of, and proclaiming, this "Seek ye first the kingdom of God" and his rightcousness, and all other things shall be added unto you;" an eternal principle for the redemption of his own, and of all the nations of the earth. The chief characteristic of the Soriptures is religious, but it is found throughout in an application of religious truths, a few simple but indispense ible principles, to the flow of current affairs. We find the divinest words of those distant years uttered in hours, and from those graphic pictures, which show us the corruptions which undermined, or the endenyors which made glorious the Jewish State. Well did Milton sing of these men whose religious fervor identified itself so thoroughly with the politics of their na-

fering people, by speaking comfortably un-

the Lord and renew their strength.

Here are revelations from God from the moral enlightenment of the people and a practical application of the golden rule to the social regime. In another we may behold the appalling contrast. Believe me, these opposite illustrations of principles, these graphic pictures colored before our, eyes, by the Infinite Artist, these passing scenes in the great and feel, and be stimulated to good and strong endeavors by just what God is teaching you in the country you call your own. If we learn so much from the divine lessons taught by the experience of Western audience, I must ask you to look at New England. She serves my purpose in illustration, and you must permit me to tell some truths about her, historical works. Stretches from the

shores of the Sound up beyond the snowclad hills of Maine, and back to the line of of the unjestic Hudson, are quiet, industrious, thoughtful and prosperous cominunities such as from the beginning of time the sider this. The portentous signs in our sun never before was privileged to shine moral national firmament which disquieted upon. Nowhere else upon the face of this round world can be found, or ever could be found, a territory of equal extent have at length had their fullfillment. where prosperities are so surprising and limost incredible; where, by universal adour affairs has been lashed by the most mission, there is so little gross vice; where, upon the evidence of statistics, there is so small a per centage of pauperism; where there is so high an average of enlighten-ment, so great a degree of domestic virtue, and so leity a tone of popular moral entiment.

And this last characteristic of New Eng. land is the foundation and secret of all the definite ray. Things begin to come to rest. Her stern and rock-bound coasts do pass which cause men to look up and lift a word from God through the slow could not enclose one of the richest, but one of up their heads. It is not by such we may see the Son of Man coming in the things that we can account for her pre-eminence, for she has it in spite of the lack of these natural advantages. Nei-ther is it by virtue of her age that she is would in but they were men whose religious great new through ions greatness is best shown to us through the various crises and dangers which assailed the Hebrew state; they were men always alive to the public weal or the publions of dollars by her productive industry; great conflict of ideas, in which the Divine clare that this moral evil must not he. Why is this, blunders of our military leaders, to our der the government of these Federal States, and how? It is simply because the people of New England have been taught, of a great moral renovation, by the influences of enlightened Christine the removal of the shameful hindrance willing to admit any and all terms of comtion philanthropists, by the humane tenden- which has hitherto blocked our peacoful promise and readjustment save this. Now England has arrived, not by her own choice in this generation, not to the especial credit of her living men, but in the natural and providential evolution of history, at a somewhat better understanding than has heretofore obtained of the practical importance of doing unto others as we ought to do unto them: as we should desire to be treated were we in their condition. She has found by actual experiment that the golden rule is conducive to financial prosperity; that the Kingdom of God to the extent she has let it come, has added great measures of unexpected wealth unto her. To day, though she had no higher or humaner intent than to serve her own interests, she would edusave horself the expense of supporting to those who while they have been

She would take the children of vice, surround them with the kindly influences of reform, noquaint them with some better way of living, and so spare herself the cost of enlarging her prisons. Though she were no onger to follow the divine way for its divineness, she would yet follow it because she has become convinced that it is the great commandments, viz: "Love God mit secession, must not readmit a single Foreigners have, more than once, remarked of New Englanders, that an senlightened regard for selves constantly prompts them to assist each other. That single fact proves that its political economy has been brought into a nearer coincidence with the Christian, or divine economy, with the law of right, than is elsewhere so generally the case. This suffices our argument. It shows how people under many comparative disadvantages, by putting in practice ought to help the infirmities of the weak, do thereby not only promote their own welfare, but elevate themselves in so doing to the very forefront of prosperous communities. They have more than compensated for their lack in soil, and climate, and mineral resource, by making the most of their human resources, by subsoiling their social fields; and have added all needful and abundant things unto themselves by ennobling to something of dignity, and usefuliness, and power, every hu-

man being in their midst. The lesson taught by what they have thus accomplished, should not be lost upverification of the theory, long held by the choicest spirits of our race, that the most just and righteous policy is the safest, and I in the end the only practically successful one; that the principles of Christiani-

He will persuade himself that we ought to tolorate the institution a little longer where it already exists in order that it may embrace its death more cheerfully. And this will be the fatal mistake if sufficient numbers of men embrace these idens to affect the action of the general government. This is a cloud of portent. no bigger than a man's hand perhaps, yet one which may increase to darken again the entire land.

It is not, of course, my legitimate function as a Christian minister to devise or suggest to my hearers all and the exact terms, tinancial, territorial and governmental which must enter into such readjustment of affairs as is close before us, and with which the next Congress will have to deal. But it is iny legitimate function to urge one thing, and to demand it in the name of God and of humanity, that into such reconstruction nothing morally wrong shall be permitted to enter. And there is not a person who hears me who does not know, as well as I know, that slavery is morally wrong in itself, and the prolific mother of numerous moral wrongs and social discuses. There is not a person who does not wish it done away. There is not one who is unaware that such a degree of enlightenment, such facilities for education, such a democratic equality, such a tone of morals, and such pure domestic

The News.

OFFICIAL PAPER OF THE CITY.

Our dispatches are unusually lengthy this evening, containing many interesting items of news, umong which the official bulletin of General Grant will not escape attention. It is but the premonitory mutterings of that thunder which will soon shake the continent.

General Dix does, not seem inclined to let Canadian rebels vote for McClellan. See his order.

Gold goes up to 2224.

Col. Charles R. Lowell of the 2d Massachusetts Cavalry, who was killed in the late battle at Cedar Creek; said in his last moments, that he had nothing to regret, save that he no longer could serve his country. He was a nephew of James Russel Lowell the poet, and was about 30 years of age. His brother was fatally wounded at DR. STRICKLAND'S TONIC. We can recoin-Malvern Hill, where he served as Lieuten- mend those suffering with Loss of Appeant. His consin. Lieut. Putman fell at tite, Indigestion, or Dyspepsia, Nervous-Ball's Bluff. His brother-in-law, Col. Shaw, was killed at the storming of Ft. Wagner, and Theodore Parkman, a cousin of Col. Shaw, fell at Newbern. Of these five sons, of four families closely connected by blood and marriage, four were only sons at the time of their deaths.

" POLITICAL PREACHING."-If any roader of the Gazette belongs to that unfortunate class of persons who get nervous whenever a clergyman alludes to our nutional affairs in the pulpit, let him not read the sermon printed in another column. But those who think and realize that religion is of some practical benefit them not fail to read and inwardly digest. The views therein set forth are so eminently just and true that they must commend themselves to the approval of every thoughtful and christian mind.

HALL MARYLAND .- No merely parcisan trinmph could awaken the joy wherewith we appounce the accession of Maryland to the sisterhood of Free States, increasing their number to twenty, and carrying their southern boundery down to the. Potomac. Delaware, thus isolated from the slave region, must soon assimilate her institutions with those of her immediate neighbors; her remnant of Slavery having for years been retained by means of an apportionment which gives to one-half of her freemen living in the anti-slavery county of Newcastle but one-third of the representation in either branch of her Legislature. Every one in Dolaware has long known that she ought to be a Free State; but Slavory is her one bond of affiliation with the Democratic Party, so the Democratic Party has insisted on keeping her a Slave State. We trust she is about to be delivered of her incubus. The redomntion of Maryland will powerfully hasten this consumation.

BRITISH GUINEAS AGAINST US .- At the great Union meeting in New Haven, on the 10th, inst., the Rev. Dr. Paiton, just returned from Europe, made a speech, in the course of which he said that he had harried home to vote for Mr. Lincoln, and that his haste has been stimulated by having observed how deeply interested the aristocracy of England are in our election, and how anxious they are that should succeed. He spoke of noblemen who freely admitted they were sending gold to this country to influence the elec-tion in favor of McClollan, believing that his election would be followed by peace and separation.

SAD ACCIDENT .- On Thursday night, the 20th inst., the house of a Russian med Barnes, in the town of Humboldt, is county, was destroyed by fire, and Mrs. 1. Tries and one child perished in the Mrs. 1. When the fire was discovered, Mrs. Barnos carried out three of her childron one at a did not return. Two of the three children aved were badly burned. Mr. Barnes ran away two or three weeks ago to escape the draft.—Green Bay Advocate.

A PRICETTEL accident has just taken place at Ulm, from petroleum. During a representation at the theater, twenty-four lamps attached to the chandelier suspen-ded from the roof burst in succession with great rapidity, and the burning oil fell like a shower of fire on the spectators, among whom were a number of ladies. In a moment the dresses of twenty of them were in flames, and most serious burns was the consequence. One of the ladies was so dreadfally injured that she died in a few hours after.

Two of the youngest soldiers in the army are James M. Anderson, co. D. 39th Ohio veterans, of Miamitown, Hamilton county, Ohio, who enlisted in Febuary 1862, at the age of 14 years and four months, passed through nine pitched bat-tles and lost an arm at Ross' Mills, Geor-gia, on the 4th of July last; and Robert Zinc, drummer of co. C. 18th Missouri veterins, who enlisted in Eppingham county, Ill., in September 1861, at the age of 10 years and six months.

"Two years of war," said Henry Ward Beecher on Saturday night, "and we have conquered half the rebel territory, hold the keys of the whole, and have nearly destroyed the military strength of the rebellion in the field. All this in two years of war." "Four years you mean," said a bystander. "No," responded Mr. Beecher. "I said two years of war. In the first two, General McClollan was in command."

icy on paper, we must support it, whatever noethink of it individually. When you hear a man finding too much fault with the Administration, you can rely on it that in seeret he is opposed to the war." - George B. Smith in 1862.

"This Administration is dragging us down to ruin faster, inconceivably faster, than the Southern Confederacy could do if they were less unobstructed to assail us." George B. Smith, in 1864.

Sixty members of the 20th company of Massachusetts artillery, stationed at Fort Smith, Virginia, have formed a christian association. They have conference and prayer meetings on Sunday and Thursday evenings, a Bible class on Sunday afternoon, weekly meeting for social debate, and one evening weekly devoted to read-- ing and signing.

FIVE DOLLARS FINE FOR DRIVING FASTER THAN A WALK .- There has come to be a general disregard of the ordinance prohibiting driving on the bridges in the city, faster than a walk, and as a very natural consequence the structures are beginning to show numistakable ovidence of such abuse, in quivering frances and weakening abutments. In view of this fact, the Common Council has empowered Mr. H. A. Vosburg to arrest every man violating the ordinance, even though he should trot his team only a few feet. Let all bear this in mind, then, and if they find themselves muleted in five dollars damages, thank themselves, and not charge that they have not received fair warning.

RESUSCITATION OF THE YOUNG MEN'S LITERARY UNION.—At a meeting of young men, held last evening, it was resolved to put into active opperation again, the Young Men's Literary Union, which for yarious causes, has been partially disormonths with the worst form of diarrhoon and dysenganized for a number of months.

The present officers are: President-Adam Skelly. Vice President -- Ed. F. Welch. Secretary-Horace Williston.

Treasurer-Philip Livingston. When young men associate themselves ogether for the purposes of mental and noral improvement, they ought to be encouraged in every possible way. If they ngage a lecturer to speak here, patronize the lecture so that they shall be encouraged to renewed efforts; in their struggles to form a library, he generous and give them substantial evidence of your interest in the movement; and by word, and deed show that you have a deep and abiding interest in their welfare. Such an organization as this, judiciously managed, is susceptible of ccomplishing great good, in rostraining young men from visiting places where evil, and only evil is to be had. And to those comprising the organization we would say, don't be easily discouraged; if things do not go on swimmingly at first, persevere

CITY POINT, Friday, Oct. 27.-9 p. m.— To Hon. E. M. Stanlon:—I have just returned from the crossing of the Boynton plank road over Thatchers creek. Our line now extends from its left to Armstrong's mill, thence by the south bank of Thatchers ereck to the point above named. At every point the enemy were found entrenched and his works manned. No attack was made during the day further than to drive his pickets and cavalry inside of the main work. Our casualities have been light, probably less than 200 killed and wounded and missing. The same is probable with the enemy. We captured seven teams on their way from Stone Creek, about a dozen beeves, a travelling forge and from 75 to 100 prisoners.

finding a point unguarded. I shall keep our troops out where they are till toward noon, to-morrow, in hopes of inviting an attack. Signed, U. S. GRANT.

SECOND DISPATCH. City Point, Friday, Oct. 28.—To Hon. E. M. Stanton:—The attack on Gen. Hancock, now that a report has been received, proves to be a decided success. He repulsed the enemy and retained his position, holding possession of the field till midnight, when he commenced withdrawing. Orders had been given for the withdrawel of the 2d Corps before the attack was made. We lost no prisoners, except the usual stragglers, who are always picked up. Our captures for the day, on

along the Vaughan road running southwest and after crossing. Thatchers Run, found the rebels entrenched in newly made works: Gen. Hancock at once charged them on the flank and drove them out. He took sometwenty prisoners, mostly cavalry. The 5th corps took the Squirrel level road and found the rebels posted at the Junction with the Dancon road which runs north from the Vaughan to the Boynton road. From this they were driven by our skirmishers with some loss, the 1st division having about forty wounded. The 2d division of this corps took the advance and crossing Thatchers run connected with

the 2d corps. Meantime Hancock advanced along the ber of prisoners. Our loss in the affair is not known, but is not believed to be heavy.

Col. Charles R. Lowell of the 2d Massachusetts Cavalry, who was killed in the late battle at Cedar Creek, said in his las moments, that he had nothing to regret, save that he no longer could serve his country. He was a nephew of James Russel Lowell the poet, and was about 30 years of age. His brother was fatally wounded at Malvern Hill, where he served as Lieutenant. His consin, Lieut. Putman fell at Ball's Bluff. His brother-in-law, Col. Shaw, was killed at the storming of Ft. Wagner, and Theodore Parkman, a cousin of Col. Shaw, fell at Newbern. Of these five sons, of four families closely connected by blood and marriage, four were only sons at the time of their deaths.

" Political Preacuted."-If any reader of the Gazelle belongs to that unfortunate class of persons who get nervous whenever a clergyman alludes to our national affairs in the pulpit, let him not read the sermon printed in another column. But those who think and realize that religion is of some practical benefit and a matter of every day congern, let them not fail to read and inwardly digest. The views therein set forth are so eminently just and true that they must commend themselves to the approval of every thoughtful an I christian mind.

HALL MARYLAND .- No merely partison triumph could awaken the joy wherewith we appounde the accession of Maryland to the sisterhood of Free States, ingreasing their number to twenty, and carrying their southern boundery down to the, Potomac. Delaware, thus isolated from the slave region, must soon assimilate her institutions with those of her immediate neighbors; her remnant of Slavery having for years been retained by means of an apportionment which gives to one-half of her freemen living in the anti-slavery county of Newcastle but one-third of the representation in either branch of her Logislature. Every one in Delaware has long known that she ought to be a Free State; but Slavery is her one bond of affilintion with the Democratic Party, so the Democratic Party has insisted on keeping her a Slave State. We trust she is about to be delivered of her incubus. The redemption of Maryland will powerfully hasten this consumnation.

BRITISH GUINEAS AGAINST US .-- At the great Union meeting in New Haven, on the 19th, just., the Rev. Dr. Paiton, just returned from Europe, made a speech, in the course of which he said that he had hurried home to vote for Mr. Lincoln, and that his haste has been stimulated by having observed how deeply interested the aristoctacy of England are in our election, and how auxious they are that McClellan should succeed. He spoke of noblemen who freely admitted they were sending gold to this country to influence the election in favor of McClellan, believing that his election would be followed by peace and separation.

WAR DEPARTMENT, WASAINGTON, Friday, Oct. 23-9 P. M.-To Maj. Gen. John A. Dix, New York :- Dispatches from General Grant received this evening, in form this Department that an advance in force, for the purpose of reconnoissance was made yesterday (Thursday) by Warren and Hancock. In the evening the en emy attacked Hancock, but was repulsed The purpose being accomplished, the troops were withdrawn from the advanced position to which they had been pushed, to their line of former occupation.

The telegrams of General Grant are all the details received.

CITY POINT, Friday, Oct. 27.-9 p. m. To Hon. E. M. Stanton:-I have just re turned from the crossing of the Boynton plank road over Thatchers creek. Our ine now extends from its left to Armstrong's mill, thence by the south bank of Phatchers creek to the point above named. At every point the enemy were found entrenched and his works manned. No atack was made during the day further than to drive his pickets and cavalry inside of the main work. Our casualities have been light, probably less than 200 killed and wounded and missing. The same is probable with the enemy. We captured seven tening on their way from Stone Creek, about a dozen beeves, a travelling forge and from 75 to 100 prisoners.

On our right Butler extended round offering some great bargains in groceries, well toward the Yorktown road, without as those who may be in need will find out finding a point unguarded. I shall keep our troops out where they are till toward noon, to-morrow, in hopes of inviting an U. S. GRANT. Signed,

> CITY POINT, Friday, Oct. 28 .- To Hon. E. M. Stanton :- The attack on Gen. Hancock, now that a report has been received, proves to be a decided success. He repulsed the enemy and retained his position, holding possession of the field till midnight, when he commenced withdrawing. Orders had been given for the withdrawel of the 2d Corps before the attack was made. We lost no prisoners, except the usual stragglers, who are always picked up. FROM GRANT'S ARMY

New York, October 28 .- A correspon lence has passed Gens. Grant and Lee concerning the condition of prisoners on both sides, and it has been agreed upon to al-low supplies to be forwarded to prisoners on each side. The mode will be adopted

New York, Oct. 28 .- The Commercia states that it is certain Grant intended a move about this time and may have made it. He would be more likely to move his left than his right wing as a successful advance by the former would render the fall of Petersburg an event beyond the nower of the rebels to prevent.

New York, Oct. 29 .- The Tribune's orrespondent at Warren's Station on the 27th, says this morning the entire army is in motion with six days rations and ammunition for any emergency. The movement is a left flank and on the extreme left Gregg's cavalry is swinging around towards the south side of the railroad and the Appottomax, then comes the 9th corps in martial array. The first division are leading the cavalry with rattling artillery and the other divisions extending to the 5th corps, upon the 3d and right division of which as upon a pivot, the revolving line is turning while the 2d division of the 2d corps are keeping time with the movement as a reserve.

The immediate objective point of the movement is the south side of the railroad, our line being once extended to the river rith this natural barrier between ours and the main rebel army, it will be a very easy matter, as will be seen by reference to the map, to keep the Danville railroad on the south side of the Appomatax, constantly cut by eavalry raids. It is impossible to foresee at what point the movement will stop, but I do not think the plan to extend the movement particularly at this time further than to the Appomotax. Then the Danville railroad south of the Appemetax to Canada, and for this purpose special diwill naturally be the next objective point

the greater part of the Army of the Potomae from the trenches and massed it in the rear for the move. The 1st division of the 2d corps with part of the 5th and 9th corns held the entire line from the Appo-

tomax on the right to some three miles West of the Weldon railroad on the left. All baggage, wagons &c., were sent to the rear at City point. At 2 o'clock this morning Gen. Han-

cock with two divisions of his corps moved along the Vaughan road running southwest and after crossing Thatchers Run, found the rebels entrenched in newly made works. Gen. Hancock at once charged them on the flank and drove them out. He took some twenty prisoners, mostly cavalry. The 5th corps took the Squirrel level road and found the rebels posted at the Junetion with the Duncon road which runs north from the Vaughan to the Boynton road. From this they were driven by our skirmishers with some loss, the 1st division having about forly wounded. The 3d division of this corps took the advance

the 2d corps. Meantime Hancock advanced along the Abbey road, driving the rebels beforehim. The rebels fell back as we advanced until our lines reached Thatcher's Run, where they were found behind strong entrenchments. Brisk firing ensued, but without much loss on either side, and at about 4 o'clock, p. m., the rebels, taking advantage of the break in our line between the 2d and 5th corns, massed Gen. Anderson's division of Hill's corps and charged the right wing of the 2d corps which gave way and fell back a short distance, but being re-inforced charged and checked the advance of the robels and captured a number of prisoners. Our loss in the affair is not known, but is not believed to be heavy.

A few minutes after the robel artillery which had been cut off on the Boynton | road made an atlack on Gregg's division directly in the rear of the 2d corps, and for a time a sharp skirmish was kept up. Gregg finally drove them off.

In the charge of the 2d corps, 2 guns were said to have been taken by the rebels, but it is stated that they were subsequently recaptured. The fighting continued on this part of the line till after dark, when a heavy rain ended the fighting.

A colored Division of the 9th Corps had some skirmishing with the rebels, but nothing approaching a fight. They lost a few wounded.

Gregg's cavalry had a sharp fight with the robels in the forenoon when they attacked his rear. He charged and drove them back capturing a number of prisoners and eight or ten wagons loaded with supplies, also some horses, mules, &c.

NATIONAL RECONSTRUCTION. Sermon: Preached in Janesville, Oc-tober 23d, 1864, by Rev. S.

There shall be signs in the sun, and in that meen, and in the start; and upon the porch distribution for mations with perpluxity; the sont and invive or realing; men's hearts, failing them for few, and for locking uter those things which are coming upon the earth; for the powers of heaven shall be shaken. And then shall they see the Son of Man coming in cloud, with power and great glory. And when these things begin to come to pass, then took up, and 'litt, up your heads; for your realemption drawsthings! The Bible itself is a national history; and if the Word of God, then a word from God through, the slow evelts tions of a national experience; it revelation of the worth of divine things in the disasters and prosperities of a people. The reigous instructors of the Hebrews were not hermits or asceties, or retired philosophers, or men who held that private virtues alone could constitute religion, while public morality might be left by them to drift as it would : but they were men whose religious greatness is best shown to us through the various crises and dangers which assailed the Hebrew state; they were men always alive to the public weal or the public peril; men who cast not only their silent and unconscious influence, but their determined purpose, and most active energies into the right ordering of the national. life; men than whom no truer types of patriotism can be adduced. It is not possible to study Hebrew polity without recognizing their conspicuous hand in its shaping; and as impossible to become famillar with the lives of these men. Moses, David, Isalah, Jesus, St. Paul, without acquainting oneself with the national aspects of their various days and gonerations. From first to last; from Moses; wise dictator and lawgiver, through that long succession of earnest and devoted prophets, to-Jesus, last and greatest of instructors and prophets, we cannot fail to see how their un strength, almost every instance, not from the piouscontemplations of solitude, but from an active and deep interest in the pooble Israel. The wisdom of Moses is called into exercise, and made immortal in earthly annals, when his political sugacity is taxed to its utmost to bring his slavery degraded countrymen to a common social understanding, and an orderly habit of living. A large proportion of the Psilms of David are either hymns of triumph; inspired by successful assaults upon his nation's onemies; or songs of war, written to stir up the people, in the name of the Lord of Hosts, to be strong and victorious in the day of battle. The touching Lamentations of Joremiah aro uttered after national defeat, when "the city sits solitary that was full of people; when the gates are deso-late, and young and old liston the ground in the streets." The prophetic fire of Isa-iah is enkindled, the period of his inspira-tion arrives, and he utters the words by which he is known to us when in the prevalence of bad principles he foresees the fate of the kingdom; or when under the reas lamity which did not long delay, he seeks to reanimate the paralized hope of his suffering people. by speaking comfortably un-

The chief characteristic of the Scriptures is religious, but it is found throughout in an application of religious truths, a few simple but indispensible principles, to the flow of current affairs. We find the divinest words of those distant years attered in hours, and from those graphic pictures, which show us the corruptions which undermined, or theren-douvers which made glorious, the Jevish State Well did Milton sing of these men

Though she were no longer to follow the divine way for its divinoness, she would yet follow it because for every man who would keep the two she has become convinced that it is the great commandments, viz. "Love God wisest haid and most useful track and his neighbor as himself." It is not wisest hid and most useful track. Foreigners have, more than once, remarked of New Englanders, that an escaling tened regard for themselves a constantly prompts them to as-sist each other. That single fact proves that its political economy has been brought into a nearer coincidence with the Christian, or divine economy, with the law of right, than is elsewhere so generally the case. This suffices our argument. It

shows how people under many compara-tive disadvantages, by putting in practice the divine law that we who are strong-ought to help the infimities of the weak, do thereby not, only promote their own welfare, but elevate themselves in so doing to the very forefront of prosperous communities. They have more than compensated for their lack in soil, and climate, and mineral resource, by making the most of their human resources, by subsoiling their social fields; and have added all peedful and abundant -things unto themselves by eurobling to something, of dignity, and usefullness, and power, every hu-man being in their midst. The lesson taught by what they have thus accomplished, should not be lost up on any man within our national borders. It is as divine a revelation as God ever gave unto our race. So far as it goes it is a verification of the theory, long held by the choicest spirits of our race, that the most just and righteous policy is the safest, and in the end the only practically successful one; that the principles of Christiani-What rains another hope, and keep it so.

We cannot enjoy our own

> The hour has now struck for us to consider this. The portentous signs in our moral national firmsment which disquieted wise amen, and called forth so many wise amen, and carried from so many boding predictions of coming wee, have ut length had their fulfillment. From nearly four years the great sea of our affairs has been lashed by the most awful of storms, with its loud waves ron-ing. Distress has visited, the nation with perplexity. Men's hearts have failed them for lear, and for looking after those things that were coming upon the earth; for the very powers of heaven have seemed to be shakon. But now, at length, hope begins to dawn with a clearer and more lelinite ray. Things begin to come to pass which clause med they begin to see that the powers of heaven, though shaken are not destroyed. In the shaken are not destroyed. In the not distant future, still thick with some obscurity and many possible dangers, we may see the Son of Man coming in the clouds of a grand national opportunity, with power and great glory. The day of our redemption draweth nigh. Possibili-

If it is a political question of the first importance, it is not the less one of the gravest religious questions too early for us seriously, conscientiously end intelligently to meet and answer it;

The probabilities are that the beginning

every man for himself.
One point is very clear to me, and must
be, I think, equally, so to you. A single
burburian, inhumans and degrading institution has been not only the cause of the different morals of our Southern countrymen, and of their different degree of general enlightenment, but the fundamental occasion of this whole civil strife. Without it there, could have been none of that rushness and infermeddling of the abolitionists of which some men so hitterly complain. Had there been no such justitution there could have been no such clam-or against it... Without it there could not have been such fierce vituperation between the representatives of the two sections. Without it so many Northern politicians would not have lost their souls. Without out it all other causes whatever which may be assigned for this wholesale slaughter of man by man could not have had their incidental existence. From the first it has been the terror of statesmen; an ominous cloud of evil in our great heaven of blue; and the perpetual reason why Ephraim vexed Judah and Judah, Ephraim. This is as readily admitted by all honest men South, as it must be by every honest man North. They tell us plainly, that they wished to break away from a government

He will persuade himself that w ought to tolorate the institution a little longer where it already exists in order fully. And this will be the fatal mistake if sufficient numbers of men embrace these deas to affect the action of the general government. This is a cloud of portent no bigger than a man's hand perhaps, yet one which may increase to darken again

the entire land.
It is not, of course my legitimate function as a Christian minister to devise or suggest to my hearers all and the exact terms, financial, territorial and governmental which must enter into such readjustment of affairs as is close before us, and with which the next Congress will have to deal: But it is my legitimate function to urge one thing, and to domind it in the such reconstruction nothing morally wrong shall be permitted to enter. And there is not a person who hears me who does not know, as well as I know, that slavery is morally wrong in itself, and the prolific. mother of numercus moral wrongs and social discuses. There is not a person who does not wish it done away. There is not one who is unaware that such a degree of enlightenment; such ifacilities for education, such a democratic equality, such a tone of morals, and such pure domestic virtues as I indicated in New England are This nation can never attain to what it might and ought to be; to what New England has attained, to what this great North West is so rapidly attaining, while we live under any Federal compact which allows t to live. It remains for you, who, at the ballot-box, instruct the government, to de-clare that this moral evil must not be. The South will have no power to resuscitate it if the North in moral carnest declares through an amended constitution, that under the government of these Federal States, property in man must not be. I urge it upon you therefore that you be

willing to admit any and all terms of compromise and readjustment save this. There is no moral objection against your sharing half your annual income with such of your enemies as this war shall have impovished. The more any man will sacrifice for his enemies the better for him, and the objection to your instructing Congress to assume a portion of the Southern war debt, if christian charity and brotherly love can so far lead you to forget your own material interests on the one, hand, and to forgive the great wrong and injustice done to you on the other. But there is every meral, prudential, humane and rightious reason why you should be willing that this institution which has always been attached by Christianity as unjust, by political economy as prejudicial; by the humane sentiment of mankind as grossly inhumane, and which for many years, driven by the grand march of democratic civilization, has been narrowly confined to that single tract of the civilized world which by national tie and responsibility we are obliged to acknowledge as our own; there is every reason for our unwillingness to live under any compact which permits any state to resuscitate it and fondle it as her own. The government which will not permit secession, must not readmit a single state with the recognized right of preserving that which occasioned secession; and, voting men, you are the government. Never lend yourselves to any species of compromise with this iniquity. I know that some men are opposed to war. Some men have told me that they deemed it a greater evil. than slavery itself. If any such are here present I arge upon them an active zeal against slavery, which they deem the lesser evil, in order that henceforth they may escape war, which they think the greater. As they dread this dreadful work of human butchery, let them be anxious to remove now, when it may be done, its occasion

Lot them pursue peace in the way wherein alone it is practicable; in the way of God's ighteousness. We shall all be recreantalike to knowledge and to duty; we shall be blind to the significant lessons of our own land and times; to the high type of life which rises it some of our greatest national intellects as an ideal before us all; we shall all be would not have gone down to posterity in unfaithful, to the divine impulse which everlasting shame and contempt. With bids us extend our privilages to others, if we are found willing for any reason what-ever, to cast our influence for any terms of readjustment which will prevent in any part of the country, privileges, prosper-ties and a social status like the highest already attained by any other part of it. If we are not found willing, and anxious, and determined in the coming reconstruction of our nation to give free course, and full application to the principles of the kingdom of God; to insist upon it that they only shall be the basis of our future civil rule throughout the land; then let us notfor any victories upon bloody fields lift up our expectant heads; or dream that the day; of true redemption draweth nigh. That coming of the Son of Man, glorious unprecedented hope and joy for humanity which we shall soon have the opportunity

SEWING MACHINE!

THE FACT THAT Will Stitch, Hem, Fell, Tuck, Cord, Bind, Braid Quilt and Embroider Leadifully. It will, with the first needle and thread run from perfect work on the first Mainsook, over the heaviest beaver cloth and cowhile, with no change of needle, thread or tension

has been in trade longer than any other man in Janes-ville, and buying as he does directly from important for cash, enables him to sell goods at prices that Wilcox, & Gibbs Sowing Machine will use coarse cotton. linen, silk and twing. It runs easier, faster and stiller than any other machine. It forms a flat, even and clastic scam, differing from eyery

"ROTATING HOOK," and drawing the twist into the goods, thus securely fastening every stitch, to that the seam will bear to be ent at frequent intervals, and in that case even, the seam is warmanted NOT TO RIP in wear, and under all circumstances to "surfice the nearhith." Old worn out family garments, bosons, pants, drisses, &c, have been submitted to Committees at Fairs where was the greatest competition, and to this stirch premiums have been awarded for its supermonity, buntettity, elisticity and

other stitch, each loop being twisted by means of the

Barathens, Silk Tallifas, Paris Pinids, Worsted Peplins, A Patented Derice prevents the possibility of the machine being run in the errong illrection, or the balance wheat ever wearing or touching the draws. By another ingenious Patent improvement The Needle Cannot be Set Wrong,

Thus avoiding the great trouble of other machines. In this it is no easy that a child may set it in the dark with unersing correctness overy time. NO BREAKING OF NEEDLES.

The blade of the needle is less than M of an inch long, and is straight. It is less than half the length of other machine needles, many of which, are curved, thereore more rasily bent or broken—a great source of an novamore ranky bentor broken—a greek source of an-novamore, expense and trouble. The Hemmer and Fell-er can never be set wrong. Any one may adjust them in the dark. The hem may be a rank width. No other hemmer or felter is like this. It turns the hem on the right or upper side, as you want it.

IT WILL NOT DROP STITCHES: As the needle is always set right, the blade short and straight does not vibrate, like longer ones.

Wilcox & Gibbs Sowing Machine Is run by steam at 1000 stitches per minute-other machines only at 400 to 1200, with safety. They are manufactured with MATHEMATICAL PRECISION.

THEY WILL NOT GET OUT OF ORDER We have known it intimately for several years. Many thousands are already in use here, and so far as we know, not one in tunify use has ever cost a dime to repair, or over been out of order at all. They will last a generalion, if properly cated for. None who have used it can be persuaded to use any other.

Hence éach part is interchange able, and can be readily

placed in case of accident,

Wilcox & Gibbs Sewing Machine Works at an instant's notice, and hover stops " maccountably." Not proceperator in ten on the Wilcox & Galles will break a negative or drop a stitch in a year. The Wilcox & Gibbs in the hands of anyone, knows no "skips," "drops," "Jumps" or "misses." The roundness; eyenness, durability and beauty of its stitch WERE NÉVĚR EQUALED.

Its a midity, absolute stillners, once of motion, marrow-ness and neatness of its Hem, and F. H. were never ap proached by any other machine. We can call in any logy or girl from the street, and with three minutes instruction they will set the needle, at all the Hemmer or Feller, and do the work with entire success. A blind girl, with the exception of threading the needle can do the same. Many ladles owning other first-class machines, come to our office to do their fine hemming and felling on the Wilcox & Glibbs Machine. The press universally pronounce this the best family sewing machine in the world.
We are General Agents for BARNUM'S SELF-SEWER,

Hem, Fell, Tuck, Cord, Blud, Braid, Quilt and Embroider Yeartfally, H. will, with the first needle and bread, run from perfect work on the fluest Mainsook, jiver the heartfast beaver cloth and cowhide, with no change of needle, thread or tension. Wilcox & Gibbs Sewing Machine will use coarse collon. Linen, with and twins. It runs easier, faster and stiller than any other, machine. It forms a flat, even and elastic scan, differing from every other stitch, each loop being twisted by means of the

and drawing the twist into the goods, thus sourcely fastening overy stitch, so that the sourcely fastening overy stitch, so that the source will be at to be cut at frequent intervals; and in that case even, the seam is warranted for an arrive wear, and under all circumstances; to "survive the soustitch." Old worn out family garmons, become, parts, dresses, &c., have been submitted to Committees at Fuira where was the greatest competition, and to rims strong premium have been awarded for its survive to the transfer of the transfer of the survive and against the survive and against the survive survive and against the survive survive and against the survive survive

The Needle Cannot be Set Wrong, Thus avoiding the great trouble of other machines. In his it is so easy that a child may set it in the dark with unerging correctness every time.

NO BREAKING OF NEEDLES.

The blade of the needle is less than \$4.0 f so inch long, and is straight: It is less than half the length of other machine needles, many of which, are carved, therefore more easily bout or broken—a great source of an newmore, expense and trouble. The Bennier and Fellowship the more than the contribution that the contribution than the contribution that the contribution th er can never he act wrong. Any one may adjust them in the dark. The been may be of any width. No other hormore or feller is life tible. It turns the been on the right or upner side, as you want it.

As the needle is always set right, the blade short and sirnight does not ribrate, like longer ones. Wilcox & Gibbs Sewing Machine

Is run by steam at 4000 stitches per minute-other machines only at 400 to 1200, with safety. They are manufactured with MATHEMATICAL PRECISION, Hence each part is interchangeable, and can be readily placed in case of accident.

Wilcox & Gibbs Sewing Machine Works at the manufacture of the wind of the Wilcox & Gibbs with breakers position in ten on the Wilcox & Gibbs with breakers position of the thind year. The Wilcox & Gibbs in the hands of anyone, knows no glatins," drops, " jumps" or "missis." cific, and, when I have an opportunity, checifully re-commend it, with full confidence in its reliability. Truly yours, JOHN B. WITHERSHAM. New York, Feb. 2, 1861.

February 8th, 1864.

From the Hon. Jacob Broom. thatlemen:—In reply to your inquiry as to the effect produced by the use of Hoofland's German litters in my family, I have no hesitation in saying that it has been highly beneficial. In one instance, a case of PHILADELPHIA, Oct. 7th, 1863. hes been highly beneficial. In one instance, a case of dyspepsia of thirteen years' standing, and which had

observed the results of the use of one bettle gave decided relief, the accord effecting a cure, and the third, it seems, has continued the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequited onic and sincerely recommend its use to the sufferers.

Truly yours, JACOB BROOM, 1707 Spruce. From Rev. W. D. Selgfried, Paster of the 12th Baptist Church: PHILAPPLYMIA, December 28th, 1883.

Messes, Jones & Evans—Gentlemen: I have recently been laboring under the distressing effects of indigentian, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested but without relief. Your Hoofland's German Bitters were recommended by persons who had tried them, and whose favorable mention of the Bitters induced meals to try them. I must confess that I had an aversion to l'atent Medi-ches, from the "thousand and one" quack "Bittets," whose only aim seems to be to paim off sweetened and drugged liquor upon the community, in a sly way, and the tendency of which, I lear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach, but up the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles Very respectfully yours, W. D. SEIGRIED, No. 254 Shackamaxon Street.

Fom the Rev. Thus. Winter, D. D., Pasto of Rochury Baptlet Church:

Dr. Juckson-Dear Sir: I feel it due to your excellent preparation, Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your tlerman Bitters. I did so, and have experienced great and un-expected relief: my health has been very materially

Dr. C. Jackson-Respected Sire: Thave been troubled with Dyspepsia nearly twenty years, and have never used any menicine that did me as much good as Hooffand's German Bitters. I am very much improved in health, after having taken five bottles.

Whiley, from a combination of over twenty dif-ferent kinds of roots, barks and herbs, which act in perfect concert one with the other, pre-pared from the original formula given by the great chief. Red Jacket, to Dr. Chapin, who used them successfully in his practice for many years, and by their usegained so great a popularity in the treatment and cure of Dyspepsia, Liver Complaint, Constipation, Sick and Nervous Hend-achs, Feyerand Ague, and all diseases artifulation from ache, Feverand Ague, and all diseases arising from torpid liver or indigestion. Persons suffering from cities of these loathsome diseases will find a sure cure by the use of these Bliters, which are perfectly pure and tree from all those drugs and poisons neually put up in such preparations and palmed off on an unsurpecting public. A single trial will con-tince the most skeptical that in the RED JACKET there is virtue which no other Bitters possess. They strengthen and invigorate the system. They are unequaled for general debility.

They are a sure cure for dyspepsia. They give a good and healthy appetite. They assist digestion. They are the best stimulant in existence. They are a preventive of Fever and Ague. They relieve constipation.

They cure Nervous Headache. They are perfectly pure and palatable. Ared persons and delicate females will find they can save large doctor's bills by the use of these lift.

Beware of counterfelts. The Red Jacket Bitters are only sold in bottles with our name blown on the side, and our private government stamp keross the cork.

**Continuous:*—Having stated it verbally to you, I have no hesitation in writing the fact, that I experienced marked benefit from your Hoofland's derman Sitters. During a long and todicuse session of Congress, pressing and operous duties nearly prostrated me. A kind friend suggested the use of the preparation I have named. I took his advice, and the result was improvement of health, renewed energy, and that particular relief is to much needed and obtained. Others may be similarly advantaged if they desire to be.

Truly your friend. THOMAS B. FLORENCE.

From John E. Withersham, Esq., firm of Withersham and Hatchinson, the colebrated manufacturers of Fancy Iron Works, 250 Quant street:

I must be recipient from you of one of the greatest favors that can be conferred upon man, viz., that of health. For many years have I suffered from one of the most annoying and debilitating complaints that the human family can be afflicted with, Chronic Diarrhous.

Diarrhom.

During the long time I was suffering from this disease, I was attended by regular physicians, giving me but temporary rollef. The cause seemed to remain until I was induced to try Heofiland's German Bitters. After the use of a few bottles of that valuable medicine, the complaint appeared to be completely studied. cated.

I often inwardly thank you for such a valuable spe-lift, and, when I have an opportunity, cheerfully re-commend it, with tall confidence in its reliability.
